

Cranebrook High School

ACTION TEAM FOR PARTNERSHIP

2012 - 2014

Agreed Objectives

- **Improve communication strategies** - within the school, parent and wider community
- **Innovative 21st Learning Space** – Flexible configurations to allow for group and individual projects and access to new technologies.
- **Maths Deadlys** - Create a fun maths program to engage students, parents and the greater community in the Cranebrook Learning Community with an indigenous focus
- **Expanding Horizons** - Career talks, interview skills, employer expectations, parent seminars, mock interviews, transitions to work and further education.
- **Indigenous Garden** - Create an indigenous learning space and edible garden for the benefit of the whole school and wider community with multiple uses.

The Action Team for Partnership (ATP) at Cranebrook High School is a team of dedicated parents, teachers and community members who are working together to add value and make a difference for all students who attend Cranebrook High School and the greater Cranebrook Learning Community.

If you would like to be involved,

no matter how much spare time you have, we can all make a difference. Whether it is expanding our networks – maybe you know someone who can donate paint or equipment or someone who may like to volunteer to undertake mock interviews – we can all help.

For more information please take one of our flyers from the front office and sign up for our email newsletter today!
